

Emilie Duclos florist in Uttoxeter has been one of precious webs customers for a few years now and it is time for a complete site redesign and a move to the new CMS & Cart software.

The biggest problem here is the old site was a mixture of flash and straight html, which was bag upto date several years ago, but is now dated. The customer however really likes the old site header.

We are trying to keep the essences of the old site together with bringing it bang upto date
